# The Old Reliable Insurance HEADQUARTERS.

## Fire, Life, Accident and Tornado Insurance.

### TORNADO INSURANCE!

Has become a NECESSITY and we can write

this class of insurance in our

TIME TRIED AND FIRE TESTED INSURANCE COMPANIES that have stood the racket in the GREAT CONFLAGRATIONS of the last FIFTY or ONE HUNDRED YEARS and to-day stand as FAST and SOLID as the ROCKS OF GIBRALTER. All honest

Losses Fairly and Promptly Adjusted.

**DIMOCK & HAYNER,**

First door East of Rock County Bank.

## Hardware, Tinware and Nails.

**Dangler**  
**Vapor**  
**Stoves.**  
**Lawd**  
**Mowers.**

## CARPENTERS' TOOLS AND SUPPLIES.

And all at **BED ROCK PRICES**, for A No. 1 goods. Remember the place, 31 West Milwaukee St.

**G. A. METCALF & CO.**

Be it High Tariff, Low Tariff, or Tariff for Revenue Only;

It is always best to encourage Home Production.

## Badger Cooking Stoves and Ranges,

BURN HARD COAL, SOFT COAL OR WOOD. Have been THOROUGHLY TESTED and their practicability is FULLY ENDORSED. Read what is said about them.

Janesville, Wis., Feb. 19, 1881.

Badger Stove Company, Janesville. Gentlemen: After giving the Badger a fair trial, it affords me great pleasure in saying that the most perfect cooking arrangement I have had the pleasure of seeing. Its mechanical construction is so perfect, and the use by which it can be controlled, will entitle any one of our neighbors to make a trial of it. The amount of fuel it uses is less than any stove I ever saw, that would accomplish as much. Another strong point in its favor, is to be able to keep up a fire, night and day. After holding the fire through night, in the morning we get one and a half hours of fire, and then the fire, coal or wood, heating evenly all four griddles, with no lack of heat or regularity.

The Badger is made with a lock of heat regulator.

The Badger Stove Company, Janesville. Gentlemen: Having a desire to procure a cooking stove that would work with the least possible difficulty in burning coal—I am about to move to Dade—1 took home and tried one of your No. 8 Badger Stoves, and have now run it several days with great success. The amount of fuel it uses is less than any stove I ever saw, that would accomplish as much. Another strong point in its favor, is to be able to keep up a fire, night and day. After holding the fire through night, in the morning we get one and a half hours of fire, and then the fire, coal or wood, heating evenly all four griddles, with no lack of heat or regularity.

The Badger is made with a lock of heat regulator.

Badger Stove Company, Janesville. Gentlemen: I reply to how I like the Badger Range, would say it fills the bill in every particular. I have used it with coal, wood and coke. With coal can easily keep a continuous fire, and it is as ready to bake at six o'clock in evening as at any time of baking fresh bread. As compared with other ranges used by my neighbors, I consider the Badger Range is the best.

J. E. GLEASON, La Prairie.

Water Fronts now Ready for Heating Upright Boilers.

Manufactured by **BADGER STOVE CO.**, Janesville, Wisconsin

For Sale at Store of John Griffiths, West Milwaukee St., and at his Branch by N. Griswold, 56 North Main Street.

**E. HALL** SECURE A HOME

OF YOUR OWN

He keeps a great variety of goods to select from and prices as low as any first-class goods can be sold for. He has some

**BIG BARGAINS** in his Job Lots

**MONEY TO LOAN** IN ANY AMOUNT DESIRED.

**C. E. BOWLES,**

All kinds, at the Gazette office.

**BLANKS!**

All kinds, at the Gazette office.

## WOMAN AND HOME.

An Interesting Organization of Nearly 2,000 Invalid Ladies.

Fashion Notes, Health Hints, and Kitchen Helps—The Coming Woman—Mrs. Stanton's Daughter—Drinks During Summer.

*[New York Hour.]* The best rule for those who can follow it in this class, is to numbered all healthy people is to drink nothing whatever during the last hours of the day. Although this advice may seem silly to those who never have tried it, the truth is that some who have been heavily tasked, working under the direct rays of the sun, drink nothing whatever before breakfast and supper. Thousands of soldiers in the United States army have made long marches, under searching suns, without tasting a drop of any liquid from the time they finished their breakfast coffee until the supper call sounded.

When many people, especially children, call thirst is merely a desire of drink in the mouth and throat. This unsatisfactory sensation is caused by the natural heat of breathing through the mouth. The air taken into the lungs dries the mouth, tongue, and especially the posterior portion of the throat. Soldiers, on the contrary, breathe through their noses, keeping the lips closed, so they entirely escape a torment which is not thirst at all, for thirst, properly speaking, is a demand by the stomach and alimentary system generally for more moisture. To drink, for the purpose of relieving a mouth made dry by being open, is frequently to overload the stomach with fluids which are not needed, and which, consequently, are detrimental to digestion. It is frequently injurious also, for it washes into the stomach all the foul solids which, in the form of dust, find their way into the mouth and throat.

Persons who are compelled to cool and moisten their palates, should first rinse the mouth with a sip or two of water. If after that, they still desire that, they must drink it by the method of sipping, not by gulping. By this method they will be as fully satisfied with a sip of water as with a pint hasty swallowed.

Water is the great American vice, and probably kills more persons than rum. This is due to the entire system cannot be denied, but sudden changes of physical temperature from warmth to coolness are always detrimental to health. Actual thirst is as quickly satisfied with hot water as with cold. When ice-water is desired the probability is that the person drinking it has eaten something which has chilled the stomach. The American rage for salt, pepper and mustard may be charged with much of the insatiable thirst which marks the American man and his European cousins.

*[Invalid Ladies "Shut-in" Society, St. Louis Republican.]*

A lady who has been fourteen years a bedridden invalid, and who has read Platonic philosophy to good purpose, sends from West Richfield, Ohio, the following sketch of the "Shut-in society." It is addressed to "those who didn't know there was so many people in the world confined to their beds."

This society was formed in 1877, and to Mrs. Jennie M. Conklin, the invalid propagator, of New Haven, N. J., belongs the honor of its organization, and it is now in its fourth year. In three years when she began to print the circular letter, she found one or two "Shut-in" home ones to write to, to do good to, and receive good from." She accordingly sent one to each, and one to each, and so on.

The "Shut-in" woman is always attractive to the eye, and the eye is one of the main avenues to the heart.

Other things being equal, her influence is more potent than her neighbors', whose reputation of dressing "just as it happens" at home in some indescribable way casts a shade over whatever virtues she may possess.

The "Shut-in" woman is always attractive to the eye, and the eye is one of the main avenues to the heart.

At this juncture Miss D. was approached by an article entitled "My Invalid Friends" signed by Mrs. Jennie M. Conklin, of New Haven, and addressed to the editor, who gave the full name and address of "Cousin Alice," and commenced a pleasing and mutually profitable correspondence with Miss Alice M. Ball, of Pittsfield, Mass. A second article called for by the above, and entitled "Inval-

id," added Mrs. L. J. Geor to the little circle. From that time the number has steadily increased, until now there are nearly 2,000 members.

In the fall of 1879 a manual containing all the name and address was issued, and every three months forwarded, up to January, 1880, a circular letter, which contained names and addresses of new members, names from the members, removals, widows, and deaths.

A monthly called "The Shut-in" Visiter, has taken the place of the circular letter, and it's the demand of the society for a more frequent method of communication. It is edited by Mrs. Katharine Burrow, Walworth, N. Y., one of the associate members.

To be a shouter, shut in from the outside world, constitutes one a proper candidate for membership in this society, which has a con-

stitution, officers, by-laws, or invitation fe-

re. The chance ender and the unexpected

find their ready to receive them. But

perhaps the greatest necessity for looking

at home exists in the home itself. To

the members of our own family circle we owe our first duty. A tidy, well-arranged home is

For SALE—A good lot, house and barn on Glen street, Second ward. Price \$1,600. JOHN G. RUXDON.

## Brieflet.

—Wisconsin Lodge No. 14, I. O. O. F., occupy Odd Fellows' hall this evening.

The Blaine and Logan Invincibles drill this evening at the roller skating rink.

—One drunk was before the municipal court to-day, and was given two days board at the county jail.

—Misses Skavion & Springer, last week, shipped two car loads of work horses to Mayville, Dakota, where they are in the stock business.

—The members of the Ancient Order of United Workmen, with their families are enjoying a private picnic at Pope's Springs to-day. P. S.—The rain storm no doubt interfered with the pleasures of the day.

—The Blaine and Logan invincibles will meet at the Norcross skating rink this evening at eight o'clock, when the organization will be completed, the balance of officers elected and the club placed in marching trim. All are invited to come and join.

—Messrs. Thomas F. McKey and E. P. Doty have taken a lease of Captain Norcross' mill, at the foot of Dodge street, and as soon as the re-fitting, which is now in rapid progress, is completed, they will take possession, and run it as a first class feed mill.

—The Beloit Free Press says: "The Line City running horse team have, for reasons best known to themselves, disbanded, and given up the racing business." Too bad! We had been looking for "champion time" to come from the Line City team this season.

—F. J. Cook & Co., proprietors of the Palace jewelry store, are constantly adding to their extensive stock new and beautiful designs in jewelry, watches, etc. Parties needing anything in their line will find it to their advantage to examine their stock and prices.

—A heavy shower of rain visited this city at three o'clock this afternoon, which was accompanied by a little hail and a little wind. The only damage so far to note, was the wrecking of the 3d ward, now almost a tattered, everything almost silent, so long while day had a hardy.

—"Well, uncle, we are looking around the country a little, and this friend of mine from Chicago, is just calling a few notes of how the people are going to vote." "Yes," chimed in the Chicago man, who was an ardent Blaine admirer, "when we put you down as a republican?"

—"Well, I guess not, do-day; I was a democrat over souz I gone over me, but I will stay with the democrats this fall."

—"Oh, I vot for Plain, sure."

—"How is that if you are a democrat?" "Well, I shudoll you how datwas. In eighteen hours and sixty I vot for Mr. Lincoln, and we had potato crops that year we hav' any sense, and now shud look of do crops, parley, corn, beets, everything almost silent, so I vot for the republicans this year, and I vot for the good old day had a hardy."

—The elements combine to help the republican party this year, and the Good-vote will be solid for Blaine and Logan.

To Betot in Sixty Minutes by the Watch.

—There were two of them, both ladies, who had come up from the Line City in an open buggy, driving a very good looking road horse. They arrived at an early hour and spent the day visiting friends. The dark and heavy cloud which appeared in the west about seven o'clock last evening, dismasted the ladies that it would be prudent on their part to hitch up their horses and start for home, or if delaying longer they might get wet. Accordingly their horses were hitched to the buggy and the ladies were comfortably seated in the same. Good-bye were uttered, and the girls went to the horse to go on. "It was on North Main street, and there were but few spectators, none of whom were able to notice any movements in the horse, or any intention on its part to leave the Beyer's. Eventually he had been receiving good care, and he was very reluctant to depart. The increasing clouds in the west had no effect on him. The whip was gently applied, which only served to induce the animal to securely brace his fore-legs and set back into the beheading. One of the ladies appeared to understand this freak of the animal and she got out of the buggy, taking the horse by the bit, started to lead it. The horse started all right, and without stopping the lady let go, and undertook to climb into the buggy at the hind end without stopping the horse, in which she failed, and the animal had to be hauled to the stable.

—"And did I ever insist you clipping their wings?"

—"Sir, I don't."

—"And didn't I keep right on, when you met me, and I told you were a member of the Young Men's Christian association, replied the lady in surprise.

—"Yes, and when you gave us eggs with fowls, did I ever kick?"

—"What's that?" scolded the woman, given over her balance by the suddenness of the blow.

—"And did I ever insist you clipping their wings?"

—"Sir, I don't."

—"And didn't I keep right on, when you met me, and I told you were a member of the Young Men's Christian association, replied the lady in surprise.
